BEYOND TOPIARY

Create the Most Unforgettable Dining Spaces this Holiday Season

Some of the most delightful holiday traditions and memories take place around the dining table—a true space for engaging and gathering with friends and loved ones.

At JANUS et Cie, our tablescapes all have something in common: an extraordinary, memorable impression of comfort and sophistication. With an eclectic mix of vases, votives, and exquisite florals, the tabletop suddenly mirrors the elegance of the furniture itself, creating a dining space that is instantly more enchanting.

Floral arrangements are strikingly elegant in vessels from our Artisan collection of handblown glass. These dazzling vases bring rich jewel tones to any tablescape.

Our signature Eve apple sculptures are simply beautiful nestled among vases and votives and create a warm, seasonal atmosphere for an autumn harvest table. For more inspiration, shop all tabletop accessories now on shopjanusetcie.com.
