BEYOND TOPIARY

Luxury in Los Cabos: Discover the Dazzling Resort Where Every Suite Overlooks the Ocean

Highlighted in Forbes' Luxury Travel Guide and awarded with a Five Diamond rating by the AAA, the Grand Velas Los Cabos redefines all-inclusive with a special focus on high design. With an iconic facade, the resort has been expertly constructed so that each of the property's 304 suites has an ocean-front view of the glistening Sea of Cortés.

Grand Velas Los Cabos' dramatic, uninterrupted views are accentuated by deep, rich neutrals and a playful yet refined design aesthetic imagined by the talented Ernesto Vela at Ernesto Vela Architects. The result is engaging yet ethereal spaces that elevate the site's natural tropical surroundings and have earned the property six gold medals for remarkable interior design by the Ibero-American Council of Interior Design.

The Velas 10 restaurant, pictured above, spectacularly highlights JANUS et Cie collections including Arbor, Amari, and Roxy. The restaurant boasts fresh seafood, fine steaks and a distinctive ambiance with unsurpassed oceanfront views.
