

JANUS et Cie®

BEYOND TOPIARY

Vino: A Modern Collection Swirling with Notes of Beauty and Craft

Bursting with character, the Vino collection, designed by JANUS et Cie founder Janice Feldman, is a gorgeous expression of contemporary craft. The open weave frames of both the seating and tables, crafted with durable JANUSfiber, appear weightless yet robust, and express expert skill in construction. "The open weave allows the pieces to breathe in perfect form, like a fine wine," Feldman says.

The comprehensive dining and lounge collection includes a chaise lounge, the ultimate piece for relaxing in style. Vino's tables feature exquisite top options: polished Carrara marble in white, polished marble top in cream, or Satin Alabama Ceramic in Mocha.

The collection's fascinating silhouettes offer a playful conversation in lightness and durability: each piece appears as an optical illusion, a seat or tabletop floating atop airy frames materialized in generous proportions. Its inviting form complements many existing JANUS et Cie collections: pair a Vino dining table with Katachi or Butterfly II armchairs, or punctuate a Wing lounge grouping with Vino cocktail tables.
