

JANUS et Cie®

BEYOND TOPIARY

The Wing Collection Soars Above, Reaching Extraordinary Heights of Design

JANUS et Cie took inspiration from the majesty of a bird in flight for the Wing collection. The sculptural, swooping silhouettes of the inventive ensemble are breathtaking—both for their beauty and in appreciation of craftsmanship. Donned with a Masterpiece distinction, a title reserved for a select number of exceptional pieces in the JANUS et Cie library, the Wing collection achieves an unparalleled level of excellence: just one armchair from the remarkable collection takes five days for a master weaver to complete, while a sofa can take up to four weeks.

The a dazzling collection expertly translates high design for any space, an ensemble that is meant to endure for generations. The dining and lounge collection is comprised of seating woven in JANUSfiber for exterior use.
