BEYOND TOPIARY

Come Together: The Versatile Rally Collection of Tables and Benches

Rally, a versatile seating and table collection designed to endure in high-traffic public spaces without sacrificing visual interest, offers practical solutions for a variety of needs. The collection consists of seven pieces—three rectangular dining tables with and without attached benches, two round dining tables (with three benches or two with an extra space for wheelchairs), a backless bench, and a trash receptacle.

The Rally pieces are available in Talc/Textured Chassis Silver or Textured Chassis Silver/Bronze colorway combinations and feature striking silhouettes with cleverly tailored details, linear slat surfaces, and substantial frames. While the tables and benches are crafted from durable aluminum with JANUScoat, the textured finish resembles wood without the upkeep.

Rally's refined, contemporary aesthetic is engineered for the longevity demands of contract, site, and hospitality environments. Rally also offers a surface mount option, which enables the collection to be anchored in spaces such as public parks and corporate terraces.
