

JANUS et Cie®

BEYOND TOPIARY

Serengeti: The Award-Winning Collection Designed by Philippe Starck

Serengeti, JANUS et Cie's first collaboration with internationally acclaimed designer, Philippe Starck, is a dining and lounge collection of extraordinary luxury and exacting craftsmanship.

A magical marriage of timeless elegance and refined, natural elements, Serengeti evokes a welcoming familiarity from a golden age of indeterminate era; sophisticated silhouettes composed of the finest materials that could have existed a century ago and will continue to serve as an enduring, sybaritic respite for generations yet to come.

Serengeti's substantial, clean-lined frames are crafted with precision from naturally finished, finely sanded, premium teak and complemented by sturdy canvas mesh sling. Scandinavian modern and Craftsman influences appear in the collection's graceful tapering, visible peg joinery, and distinctive profiles.

Celebrated as Serengeti's most distinctive piece, the Sofa 2 Seat with Canopy was a 2022 recipient of the prestigious Good Design Award. The two-seat, high back sofa features a clever, integrated awning that serves as an exceptionally chic solution for sun protection, whether you're gazing

across the plains, relaxing on the veranda, or lounging poolside.

The Serengeti collection exemplifies JANUS et Cie's affinity and respect for nature's inherent beauty, an uncompromising drive for excellence in engineering, and an aesthetic of everlasting opulence.
