

JANUS et Cie®

BEYOND TOPIARY

Introducing Palmetto: Kitted, Stocked and Ready to Ship!

Literally turning the concept of traditional umbrella design inside-out, the Palmetto Umbrella features an aluminum rib and strut frame atop the canopy—instead of beneath—for a clean, contemporary aesthetic. The kitted design includes a powder coated aluminum frame with a 100% solution-dyed fabric canopy and cover, available in three eminently versatile, neutral hues that coordinate with JANUS et Cie's collection of furniture covers: Heather Grey, Light Grey, and Tan.
