BEYOND TOPIARY

Find Serenity at The Country House by André Fu Living

Beautifully emphasizing its natural surroundings, The Country House by André Fu Living is a quiet retreat that fosters inspiration, rejuvenation, and a connection with the outdoors.

Stepping poolside, the bright white of JANUS et Cie's solid aluminum Quadrati collection is juxtaposed by the earthy Driftwood-finished teak of the Rock Garden chaise lounges, each finished with cushions in Heather Tabasco and Bandeau Papaya textiles for a unifying aesthetic.

Additional Rock Garden lounge and dining vignettes can be found surrounded by lush greenery across the terrace. The mixed motif of geometric and organic forms of the durable, powder coated aluminum Kyoto Alu lounge chairs and side table echo the prop roots of the majestic 50-year-old banyan tree under which they rest.

"The Country House embodies nature, serenity, and relaxed luxury. It's an organic design process that evolves in time, allowing a personal connection with the environment. With extensive outdoor landscaping, a wisteria tunnel, a riviera-inspired swimming pool, and a tranquil mini lake with a majestic banyan tree, every corner captures nature's essence," says the team at André Fu Living.
