BEYOND TOPIARY

Amalfi Becomes a Canvas for Color & Pattern with Manuel Canovas

Presented in the Manuel Canovas showroom during Paris Déco Off as part of the Spring 2026 launch, JANUS et Cie's Amalfi collection took on a new rhythm through the use of vivid hues and expressive motifs. The result is a layered yet harmonious outdoor expression where bold geometrics meets softened florals.

On Saturday, January 17, JANUS et Cie and Manuel Canovas partnered on a buzzworthy celebration to close out Paris Déco Off. Amalfi's signature design and impeccable craftsmanship paired flawlessly with Manuel Canovas' stunning fabrics as a refined backdrop for conversation, connection, and collaboration.

Drawing inspiration from a stunning stretch of Italy's southern coastline, Amalfi marries centuries-old Etruscan design with modern-day sophistication. A comprehensive lounge and dining collection, Amalfi features timeless, hand forged latticework of powder coated steel juxtaposed with refined geometric and curvilinear forms, luxurious cushions, and a choice of glass or stone tabletops.
