

JANUS et Cie®

BEYOND TOPIARY

At the Forefront of Design: Milan Design Week 2026

JANUS et Cie's Milan showroom welcomed clients and press from around the world to explore the 2026 introductions during Milan Design Week. From April 19-26, the showroom highlighted the new Viretta and Bollaro collections by Sebastian Herkner while debuting comprehensive collections such as Besso, Fleura, Cordee, and Vasto, along with distinctive accent pieces including Elaro and Bovolo.

On the evening of Tuesday, April 21, guests were invited to stop by the showroom to meet designer Sebastian Herkner and hear the inspiration behind his collections for JANUS et Cie. Viretta's graceful curvatures and sophisticated silhouettes with spare, open frames feature seat backs composed of woven rods in a diamond pattern, while Bollaro presents generously scaled JANUSstone dining tables with vessel-like pedestal bases and vast tabletops designed for spacious, yet intimate, gathering.

To celebrate the recent opening of The Carlton Milan hotel, JANUS et Cie held an exclusive cocktail party on Wednesday, April 22 at the property's elegant exterior garden terrace, which features the iconic Amalfi collection. VIP guests enjoyed seasonal hors d'oeuvres, tours of a suite with a balcony accented by additional Amalfi pieces and stunning view of Milan, and the company of fellow design visionaries.
