BEYOND TOPIARY

JANUS et Cie Arrives at DASH Outdoor Living in Jacksonville, Florida

On September 10, DASH Design Center in Jacksonville, Florida opened its doors with a ceremonial ribbon cutting and full day of retailer activations, bringing together leading names in the design industry.

JANUS et Cie proudly joins DASH Outdoor Living with a dedicated 4,000-square-foot space. On display is an edited selection of furniture, accessories, and high-performance textiles. The thoughtfully curated environment offers designers and design enthusiasts an opportunity to experience the breadth and versatility of JANUS et Cie's collections in person.

To celebrate the opening, JANUS et Cie welcomed guests with specialty gourmet popsicles from Icecapade Frozen Treats and an opportunity to win an iconic Eve Apple.

Located within Jacksonville's growing design community, DASH Design Center was created as a destination for designers, architects, and design

enthusiasts to gather, learn, explore, source, and find inspiration. For JANUS et Cie, the new space offers an exciting opportunity to connect with the design community in a setting dedicated to the art of creating beautiful spaces for outdoor living.
